RYANSHTECH
SBA 8(A) WOMEN OWNED CERTIFIED COMPANY (2021 - 2030)

Corporate Capabilities

Established in 2011, Ryansh Corporate Solutions, LLC. (RyanshTech) is an SBA Certified 8(a) and Economically Disadvantaged Women-Owned Small Business (EDWOSB) dedicated to expertly serving our customers. Headquartered in Fairfax, VA, we are a performance-based organization, whose philosophy is fostered through trusted partnerships with clients to assess their needs and, in turn, develop the methods, tools, and techniques to successfully meet the objectives. As a highly respected, service-oriented business built on strong client relationships, RyanshTech tailors services to meet customer needs.

RyanshTech is committed to excellence and creating innovative solutions for our Federal Government clients, continuously striving to deliver an outstanding service experience and surpass client's expectations. Our collective knowledge and experience provide leadership and strategic direction within the practice areas offered. We adapt commercial and in-house proven best practices to deliver a higher level of operational efficiencies and value to our clients. Above all, a continued commitment to customer satisfaction and quality control distinguishes RyanshTech.

Past Performance

Consumer Financial Protection Bureau (CFPB) – RyanshTech is providing mission critical Mobility Engineering Services to support and expand Mobile Device Management (MDM), Mobile Applications Management (MAM), and Enterprise Mobile Management (EMM) capabilities for the Office of the Chief Information Officers. RyanshTech will provide agency leadership with integration, engineering, and mobile architecture services along with operations and maintenance (O&M) support services to manage the CFPB's mobile devices, apps and SaaS services. RyanshTech is supporting mobility engineering, device, and application management using strategic authentication and threat defense to continue to position CFPB at the forefront of technology.

Department of Homeland Security, Customs and Border Protection (CBP) - Supported DHS CBP Polygraph Case Management System (PCMS) Program to streamline the case management process by providing intuitive dashboards for enhanced validation and reporting statistics, enable increased operational efficiencies, and ensure federal investigative and judicial regulation compliance. Provided 508 guidance and consultation support on Section 504 and 508 compliances for program office and provide support to all stakeholders for all 508 implementation related questions/queries.

Department of Homeland Security (DHS)/Transportation Security Administration (TSA) - The RyanshTech Team providing administrative and technical Communications, Correspondence and Engagement Support (COMMS) of the Operations Support Communications and Correspondence Teams (OS-CCE). RyanshTech use methods based on CMMI Level 3 standards; driven by ITIL Best Practices; that compliant with ANSI, IEEE, and Project Management Institute (PMI) standards and guidance for better project management.

Leadership Team

Pooja Behl, CEO is a seasoned management executive in the Federal and Commercial sectors bringing 15+ years of success in consulting, program/project management, quality improvement, and business development. Her experience with USAID ensures consistent delivery excellence to provide vision and leadership for RyanshTech and is responsible for the company's direction, strategic goals, and growth objectives with a focus on delivering transformative solutions.

Gretchen Barlow, COO works closely with the executive leadership to foster the company's growth, mature its operating infrastructure, and achieve its strategic business objectives. She has spent 20-years in the private sector building industry relationships and managing business operations and applies her expertise, and experience, in partnering with small businesses to provide the integral link to position them for sustained success, profitability, and growth.

Brenda Bearden, Vice President With more than 45 years in the industry, Brenda is a seasoned executive who possesses sharp business acumen and extensive federal institutional expertise to position RyanshTech at the forefront of opportunity. Throughout her tenure, Brenda has supported numerous federal agencies in the areas of acquisition support, financial & technological support, project management support, SharePoint administration, and Federal Procurement Data System integration support.
